This Agreement is entered into on [date] between:

1. **Rémy Deman, Margaux Maertens, Rune Meerpoel, Cagiel Drubbel, Maxime Bauwens** ("Developer")
2. **Jeroen Vroman / StarApps** ("Recipient")

Purpose

The Developer has created a Minimum Viable Product ("MVP") of the concept FairSplit+, a group expense management web application that allows users to easily track, split, and settle shared costs for short-term trips or events. Both parties agree on the terms of handover and ownership.

1. Ownership & IP Transfer

- The Developer hereby assigns all rights, title, and interest in the MVP, including source code, designs, documentation, and related intellectual property ("IP"), to the Recipient.
- After this transfer, the Recipient will be the sole owner of the MVP and the IP.
- The Developer will provide all necessary files and reasonable assistance to complete the transfer.

2. Non-Pursuit / Non-Compete

- The Developer agrees not to independently pursue, exploit, or commercially develop the concept or substantially similar solutions for a period of **three (3) years** from the date of this Agreement.
- This restriction does not prevent the Developer from working on unrelated projects, general software development, or similar technical solutions in other domains.

3. Confidentiality (NDA)

- The Developer agrees to treat all information about the concept, business model, customers, and strategy of the Recipient as **confidential**.
- The Developer shall not disclose, share, or use this information for any purpose other than the execution of this Agreement.
- This confidentiality obligation shall remain in force for **three (3) years** after the date of this Agreement.

3. No Further Obligations

- After handover, the Developer has no obligation to maintain, improve, or further develop the MVP unless separately agreed in writing.

4. Warranties & Liabilities

- The MVP is handed over "as is", without any warranties of fitness or completeness. 15/10/2025
- The Developer is not liable for any damages, losses, or claims arising from use of the MVP after handover.
